# New Product Information

### Quartz tubes C4351 / C4354

Elemental Microanalysis manufactures a huge, constantly expanding range of quartz products for use in combustion elemental analysers. Each product is carefully checked for tight dimensional tolerances under our ISO 9001 certification.

Elemental Microanalysis now introduces two new quartz products for LECO 836 ONH/OH/NH/H analysers.

Part Number	Description	LECO
C4351	Quartz Tube 625-711-116	625-711-116
C4354	Quartz Tube 625-710-392	625-710-392

Product C4351 is a direct replacement for the incoming catalyst tube (original part: 625-711-116).

Product C4354 is a direct replacement of the measure analysis tube (original part: 625-710-392).

These products offer the same high quality and value for money that is typical of Elemental Microanalysis' entire product range.

This extension of our product range now ensures we can offer most of the products required to run these Leco instruments, in addition to our renowned chemical consumables.

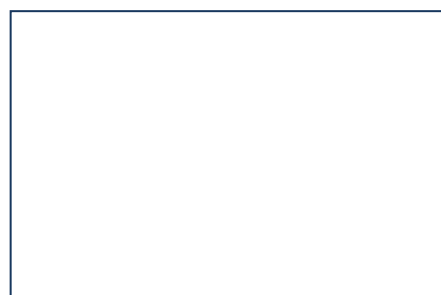

Available to order from our ISO 9001 factory online, by email, telephone or fax. Elemental Microanalysis offers extensive knowledge of analysis, 40 years of experience and a worldwide reputation for excellence.
