

New Product Release

Ion Chromatography vials

Elemental Microanalysis introduces a new range of high quality vials, caps and accessories for Thermo/Dionex® and Metrohm® Ion - Chromatography auto-samplers at attractive prices.

The vials are manufactured from high grade polypropylene the preferred material for low and consistent blank anion, cation, organic acid and Cr VI values. These products are available with plain, filtered and pierce caps and are fully compatible with the equipment mentioned. For details see the table on the following page. Available now for immediate delivery.
